Bristol Bay: On February 28, management and staff from Region 10, the Office of Water, the Office of Research and Development, and the Office of General Counsel briefed David Schnare and Justin Schwab on the history, timeline, Ex. 5 - Attorney Client and current status of EPA's activities in the Bristol Bay watershed. Because the stay of the pending litigation and open Freedom of Information Act requests expires on March 20, 2017, David Schnare requested that the briefing team schedule a meeting with the Administrator for the week of March 6 to provide background on the issues and present Administrator Pruitt with options for moving forward. The Office of Water is working to schedule that meeting. Contact: David Allnutt (3-2581).
